

MEDEA RADISSON SAS HOTEL ELECTROMECHANICAL (MEP)

BILL OF QUANTITIES

Cagla Group Electricity Company opened its subsidiary in Batumi. This company is world level in the field of electricity. Company implemented very important projects in many countries: Hotels, living complex, outside lighting, trade centers, bank buildings, factories, hospitals and healthcare centers. Cagla group implements the projects with French partner. They create such systems when city lights are regulated from one point, like: Eiffel Tower, Brandenburg Gate, Parliament building of Mexico, president residence of Kazakhstan, etc.

Company plans to educate personnel locally and create strong electricity company working with modern systems, which will fill the deficiency in this field.

Company has already started to work on Batumi lights, parking and other particular projects. By the end of October is planning to do French-Turkish presentation in Batumi.

International Investors Association of Georgia conducted negotiations with Cagla Group and their interest in Georgia is a vivid example of association's successful activity by means of attracting investments.
