

On June 24 of the current year, the representatives of the joint project “Economic Prosperity Initiative” of USAID and Deloitte visited International Investors Association of Georgia. The main

goal of their visit was to get full information about textile sector. Meetings were also held with textile member companies of International Investors Association where the guests got acquainted with the work process, received the information from the investors about advantages and disadvantages of investing in textile sector of Georgia, about the qualification of the workers, production volume and so on. USAID representatives presented their project concerning Textile Industry development in Georgia.
